

Results of the 2023 Children's Map of the World Competition in Croatia

The Barbara Petchenik Award was launched by the International Cartographic Association (ICA) in 1993 as a memorial to Barbara Petchenik, vice-president of that society and a cartographer who worked with maps and

children all her life. The awards are given every two years during an international cartographic conference, preferably at least one for each continent, with special attention given to the age of the child who created the

artwork. The goals of the competition are to promote children's creative representation of the world in graphic form, to improve their cartographic perception and perception of the environment.

Rezultati natječaja za dječju kartu svijeta 2023. u Hrvatskoj

Nagradu Barbara Petchenik pokrenulo je Međunarodno kartografsko društvo (International Cartographic Association – ICA) 1993. godine kao uspomenu na Barbaru Petchenik, dopredsjednicu toga društva i kartografinju

koja je cijeli život radila s kartama i djetetom. Nagrade se dodjeljuju svake druge godine za vrijeme međunarodne kartografske konferencije, po mogućnosti barem jedna za svaki kontinent, s posebnom pažnjom posvećenom dobi

djeteta koje je izradilo likovni rad. Ciljevi natjecanja su promoviranje dječjeg kreativnog prikazivanja svijeta u grafičkom obliku, poboljšanje njihove kartografske percepcije i percepcije okoline.
