

Croatian Cartographic Society, Department of Geography at University of Zadar and Croatian Geographical Society, are organizing the 9th Conference

## Cartography and Geoinformation

with international participation and celebrating World GIS Day in Zadar, November 20-22, 2013

**Croatian participation in the International Cartographic Exhibition in Dresden this year point to the conclusion that production of maps and other geoinformation products in Croatia is not at the desired level. Invited lecturers from Croatia are going to attempt to represent the state of geospatial data and map production in the Republic of Croatia.**

### Location

Department of Geography, University of Zadar, Zadar, Dr. F. Tuđmana 24i

### Partners

Scientific Library Zadar  
State Archive Zadar  
Hydrographic Institute of the Republic of Croatia, Split  
Geodetski zavod d.d. Split  
ACES d.o.o.

### Invited patrons

Ministry for Science, Education and Sport  
Ministry of Construction and Spatial Planning  
Ministry of Environmental and Natural Protection  
Ministry of Defence  
Croatian Academy of Engineering  
County of Zadar  
Tourist Board of the City of Zadar  
Tourist Board of the City of Pag  
Tourist Board of Novalja

### Introduction

In collaboration with the Department of Geography of the University of Zadar and Croatian Geographical Society, the Croatian Cartographic Society wants to contribute to the development of geoinformation, cartography, geography, and related fields, with a particular emphasis on GIS and spatial data infrastructure. A wide variety of topics and keynote speakers guarantee interesting lectures and a contemporary approach.

The World GIS (GIS Day) is an international forum of users interested in geoinformation system (GIS) and technology displaying successful GIS applications. GIS Day was celebrated for the first time in 1999 (<http://www.gis-day.com/about.html>). More than 950 events worldwide were registered on the occasion of GIS Day in 2012. This year, GIS Day is going to be celebrated on November 20, which is also the first day of the conference.

The concept of spatial data infrastructure (SDI) is determined at the national level with the new Law about the National Spatial Data Infrastructure.

The INSPIRE directive is a turning point in the approach to spatial data at the continental level. INSPIRE establishes the framework for collecting, processing, distributing and using spatial data in the future. It is also one of the major topics of this conference.

### Topics

- GIS and cartography in education
- GIS in crisis situations
- GIS in local government and economy
- Cartography and geoinformation in education
- Development of spatial databases
- Spatial data quality
- Naval, military and topographic mapping
- Map projections
- Cartography and the Internet
- Thematic Mapping
- Cartographic generalization
- Spatial data and copyright
- Visualization of spatial data
- Historical topics
- INSPIRE
- Spatial Data Infrastructure
- Legalization

The Organizing Committee will review requests of other topics related to cartography, geography, geodesy, geoinformatics and other professions.

The conference program and abstracts will be published in paper form and presentations will be posted on the Croatian Cartographic Society website.

### Invited Keynote Speakers

#### Danko Markovinović

State Geodetic Administration

#### Mladen Pahernik

Ministry of Defence

#### Zvonko Gržetić

Hydrographic Institute of the Republic of Croatia

#### Josip Halamić

Croatian Geological Survey

#### Dubravko Gajski

Faculty of Geodesy, University of Zagreb

#### Tomislav Hengl

Internationaal Bodemreferentie en Informatie Centrum – ISRIC, Wageningen UR

#### Dragan Umek

Università degli Studi di Trieste, Trieste

## Special Events

Visit to the St. Frane monastery and its library where two valuable globes made by famous Coronelli are kept.

Promotion of co-organizers publications.

## Map Exhibition

An exhibition of old maps and atlases kept in the Scientific Library Zadar, State Archive in Zadar and Library of Zadar Archdiocese, as well as modern maritime charts published by the Hydrographic Institute of the Republic of Croatia has been prepared.

## Post-conference Tour

One day guided tour to the island of Pag is scheduled on Friday, November 22, 2013, with technical and cultural visits and lunch.

## Registration and Abstract Submissions

Please register on-line through <http://www.kartografija.hr> no later than September 30, 2013. Please note that the number of participants is limited.

All authors are invited to send abstracts on-line until September 30, 2013.

## Registration Fee

**Registration fee A** amounts 1500 HRK and includes participation at the conference all three days, conference materials and the post-conference tour.

**Registration fee B** amounts 1200 HRK and includes participation at the conference for the first two days and conference materials. The post-conference tour is not included.

**Registration fee C** amounts 900 HRK and includes participation on the first day of the conference only, and conference materials. The post-conference tour is not included.

Students, retired people and others can pay reduced fee if they submit a request to the organizers.

The registration fee should be paid to the Croatian Cartographic Society's account at the Zagrebačka banka d.d., Paromlinska 2, Zagreb, Croatia, **SWIFT ZABA HR2X**, **IBAN HR672360000-1101509436** and informed the organizers by **September 20, 2013**, at the latest.

## Accommodation

The fee does not include accommodation costs. All participants have to take care of their accommodation in Zadar.

## Organizing Committee

Miljenko Lapaine, President, CCS, Zagreb  
Milenka Bukvić, CCS and Scientific Library Zadar

Vera Graovac Matassi, Department for Geography, University of Zadar

Lena Mirošević, Department for Geography, University of Zadar

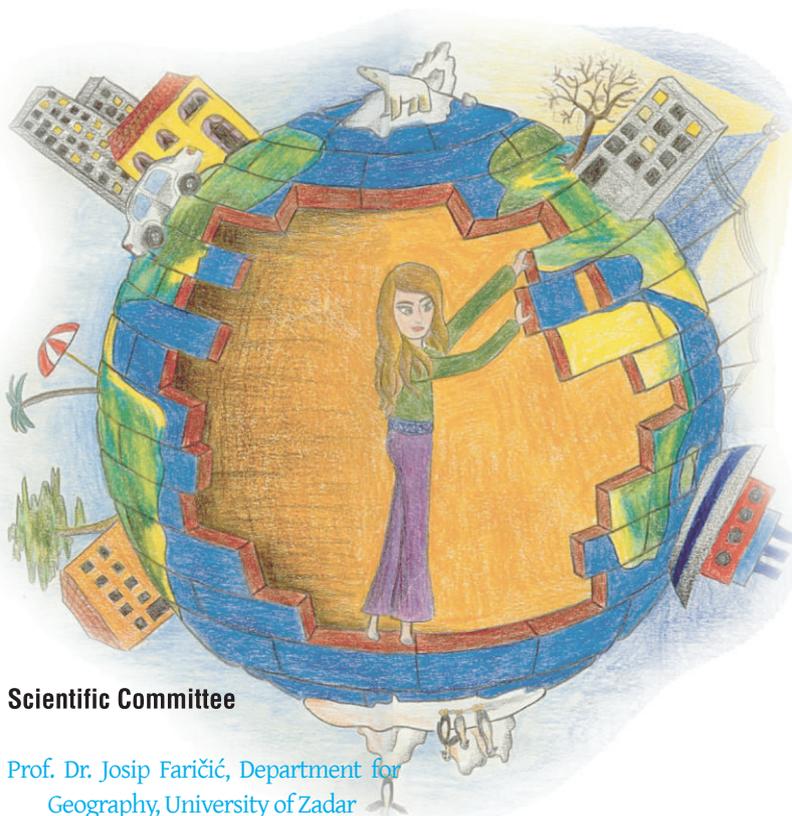

Marina Rajaković, CCS, Zagreb

Ante Šiljeg, Department for Geography, University of Zadar

Ivan Šulc, Department for Geography, Faculty of Science, University of Zagreb

Dražen Tutić, CCS and Faculty of Geodesy, University of Zagreb

Luka Valozić, Department for Geography, Faculty of Science, University of Zagreb

## Scientific Committee

Prof. Dr. Josip Faričić, Department for Geography, University of Zadar

Prof. Dr. Aleksandar Toskić, Department for Geography, Faculty of Science, University of Zagreb

Doc. dr. sc. Ivka Kljajić, Faculty of Geodesy, University of Zagreb

Doc. dr. sc. Dubravka Spevec, Department for Geography, Faculty of Science, University of Zagreb
