

Croatia at the International Children's Drawings Exhibition in Durban

The International Children's Drawings Exhibition with the theme *Creating a Better World for Children* took place within the scope of the 21st International Cartographic Conference of the International Cartographic Association in Durban, August 10-16, 2003. The *Barbara Petchenik Children's World Map Competition* was initiated by the International Cartographic Association (ICA) in 1993 in memory of one of the vice presidents of ICA and a cartographer who spent her entire life on children cartography.

Croatia's participation so far has been successful at the exhibitions in Barcelona (1995), Stockholm (1997), Ottawa (1999) and Beijing (2001). The map exhibited in Barcelona was included in UNICEF's poster *Children Draw the World*, and another one, exhibited in Stockholm, was one of the winners.

The Committee for Exhibitions of the Cartographic Section of the Croatian Geodetic Society, in collaboration with the Croatian Cartographic Society, informed the Croatians of the rules and instructions for the Barbara Petchenik competition for 2003 (see Geodetski list 2002,

Hrvatska na Međunarodnoj izložbi dječjih crteža u Durbanu

Međunarodna izložba dječjih radova na temu *Stvaranje boljeg svijeta za djecu* održala se, uz ostalo, u sklopu 21. međunarodne kartografske konferencije Međunarodnoga kartografskog društva u Durbanu, od 10. do 16. kolovoza 2003. Natječaj *Barbare Petchenik* za dječju karte svijeta pokrenulo je Međunarodno kartografsko društvo (International Cartographic Association – ICA) 1993. godine kao uspomenu na jednu od potpredsjednica ICA-e i kartografkinju koja se cijeli život bavila dječjom kartografijom.

Hrvatska je do sada s uspjehom sudjelovala na izložbama u Barceloni 1995., Stockholmu 1997., Ottawi 1999. i Pekingu 2001. godine. Rad izložen u Barceloni uvršten je poslije u poster UNICEF-a *Djeca crtaju svijet*, a drugi, izložen u Stockholmu, proglašen je jednim od pobjednika.

Children's World Map 2005

A call to the competition

The Barbara Petchenik Award was created by the International Cartographic Association in 1993 as a memorial for Barbara Petchenik, a past Vice president of the ICA and cartographer who worked through her life with maps related to children. The aim of the contest is to promote the creative representation of the world in graphic form by children.

The awards are given every two years during an ICA conference or an ICA general assembly, preferably at least one for each continent, with special consideration to the age of the child producing the drawing. The awarded drawings are submitted to UNICEF for consideration as greeting cards. Participating nations are encouraged to report on the ways they have used for collecting drawing (video report, etc.) and to collect and archive maps for further research.

Rules of the competition

ICA member nations will collect maps, on the theme **Many Lands – One World**, produced by children less

than 16 years of age. This is the theme for the next two conferences. The international judging will focus on three criteria: 1) a recognizable message, 2) cartographic content, and 3) the quality of execution.

The maximum size of a map must not exceed A3 (420 mm × 297 mm or 17 × 11 inches). Any number of «systems of projection» can be used to generate the coastlines and other base material (e.g., international boundaries and graticule). These can include tracing or copying an existing world map or using a computer program.

Each map must have the following information on a label attached to the back side of the representation: the name, age, school address and country of its author, and the title in either English or French, as well as in Croatian.

The winning entries will be submitted to the UNICEF International Art Committee by the ICA Executive for consideration as greeting card designs. Any participant agrees that his/her representation may be reproduced
